

P95

COMMANDER

STANDARD FEATURES INCLUDED

Easy Sheet (Electric Mesh Tarp)
9" Auger
3 x Admix System
Electric Internal Vibrators
Wireless Remote Control
Printer
Strobe Lighting
Marker Lights
Commander Control System
Reversing Camera Unit
Chute Rack and Three Chutes
Rear Auger Mounted Hydraulic Receptacle Chute Supplied / Fitted
Wash Down Hose
Wheel Barrow Rack
Standard Power Pack <i>(Trailer Mount Only)</i>

OPTIONAL EXTRAS

Body

26" Rear Extension
52" Rear Extension
Aggregate Bin Extensions
Aggregate Bin Liner
Cement Fill Pipes
Fender Upgrade
Manual Swivel Chute
Onboard Toolbox
Side Mount Diesel Engine Package

Application

4 Admix System
12" Auger
Additional Vibrators (4)
Colour Feeder
Fibre Feeder
Heat Exchanger
High Volume SCM Bin
Low Volume SCM Feeder

Safety

Cement Bin Rear
Folding Ladder
Cement Bin Safety Rails
Rear Safety Platform
Water Tank Safety Rail

Verification

Belt Material Flow Sensors
Gate Height Verification Sensors
Load Cell System
Low Level Cement Bin Sensors
Verification Package
Water Tank Level Sensor

Additional

Additional Front Water Tank
Additional Oil Cooler
Auto-Lube System
Auxiliary Side Water Tank
Custom Paint
High Volume Hydraulic Pump
Pressure Washer

Some features/options not available on all models.

The P95 Commander is ProAll's largest work horse, this unit is configured for high-volume production capacity. A new look and new technology means it leads the pack in the way the world pours concrete. The P95 Commander promises a more capable, more precise and more responsive mixing experience - every time.

SPECIFICATIONS

P95

Production Capacity (m ³ /yd ³)	9 / 12
Production Rate (m ³ /hr) (yd ³ /hr)	50 / 65
Aggregate Bin (m ³ /yd ³)	5.55 / 7.25
Sand Bin (m ³ /yd ³)	4.75 / 6.2
Cement Bin (m ³ /yd ³)	3.2 / 4.2
Water Tank (l/US gal)	2350 / 620
Dual Product Admix. System (l/US gal)	3 tanks, 45 / 12

COMMANDER

COMMANDER CONTROL SYSTEM

4 admix system, 5 powder/auxiliary system capability

Ability to set moisture contents

Auger boom/swing/chute joystick

Auto stow function

Automated admix

Automated water

Automatic calculation of gate settings and ratios

Calibration for aggregates and powders

Data logging for thousands of previous mix jobs

Digital adjustable auxiliary ratio for colour and flyash (up to 4)

Digital adjustable cement ratio

Digital adjustable vibrator times

Digital auger and belt speed settings

Digital production rate display (yd/hr)

Mix design loading and saving (up to 50)

Optional password protected screens

Printable receipts for last 25 jobs

Selectable print options

Volume stop feature

Water set points adjusted on screen with changes in belt speed

Water wash out mode

For construction contractors and concrete producers who want control over their concrete quality and delivery, ProAll Reimer Mixers offer the most high performance mixing experience thanks to an **all-new control system** that makes the ProAll Reimer Mixer the most high performance mixer in the world.

Command cement Change your strength quickly and easily with no recalibrating necessary, including any type of lean mix

Cutting edge hydraulics A digital control system ensures your belt never speeds up or slows down

Digital controls All adjustments to the mixer can be made on one easy dashboard

High definition display Monitor production in real time with precise measurements for each mix ingredient on one full colour screen

Slump lock Mix elements track automatically with any change in belt speed to match any pre-set water-cement ratio
